

Want to Go Solar?

Learn more about an Edina Community Solar project and how you can participate.

New legislation in Minnesota has created an opportunity that allows individuals and households to “subscribe” to energy from a solar installation located on a large roof in the community. This gives new options for community members to participate without the need to have a solar installation on their home.

Join Us!

A representative from Minnesota Community Solar will deliver a short presentation and convene a dialogue on the program. Discover how you can partner with Cool Planet to grow this idea!

RSVP 952-920-1547 or mindy@coolplanetmn.org

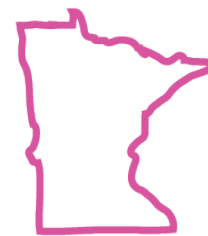

When: Friday, October 24th, 2014, 6:30 – 8pm

Where: Davanni's, 5124 Gus Young Lane, Edina 55436

Snacks will be provided. ☺

Hosted by:

Mindy Ahler & Paul Thompson
Cool Planet Co-Directors
