Climate Solutions: Citizens Step Up

Wednesday, April 1, 6:30 – 8:30 pm

LHC Climate Action Team; FREE

Join members of Citizens' Climate Lobby Twin Cities to discuss simple and complex actions that all citizens can take to engage in climate action. Writing letters to the editor, meeting with your elected officials and getting legislation passed that prices carbon and returns all the fees equitably to American households will be discussed. We will learn share and TAKE ACTION to create the political will for a livable future.

Curious About Community Solar?

Tuesday, April 14, 7:00 pm – 8:00 pm

Jamie Long, Linden Hills Power & Light; FREE

Come hear a presentation from Linden Hills Power and Light and local solar company Sundial Solar about their neighborhood community solar project. Learn about the benefits of community solar, who can participate, likely costs for shares, and the current landscape for community solar in Minnesota.

Multimodal Transportation Systems

Thursday, April 16, 5:30 pm – 8:30 pm

LHC Climate Action Team; FREE

Kick the tires of a Tesla and other electric vehicles, find out what it takes to be a bicycle commuter and get other tips about alternative transportation opportunities. Learn about our Bicycle Benefits program and more at this interactive and informative workshop.

Earth Day Webcast “Climate Urgency & How Heartland Farmers and Businesses Can Take the Lead”

Wednesday, April 22, 6:35 pm – 8:30 pm

Katharine Hayhoe, Texas Tech University; FREE

Happy Earth Day! We are celebrating our planet this year by airing a live lecture webcast from Iowa State University. Katharine Hayhoe is an atmospheric scientist and a climate change evangelist. She directs the Climate Science Center at Texas Tech University and is the founder and CEO of ATMOS Research, an organization created to bridge the gap between scientists and a broad range of non-profit, industry and government clients.

Protect Our Pollinators Gardening and Water Stewardship

Thursday, April 30, 6:30 pm – 8:30 pm

LHC Climate Action Team; FREE

Concerned about pollinators, local, organic food sources and how to manage the extreme rain events that are more frequent in recent years? Join gardening experts and Master Water Stewards to talk about your yard and garden as solutions for growing food, managing storm water, sequestering excess carbon, while attracting pollinators.
