

Want to Go Solar?

Learn more about Community Solar Gardens and how you can participate.

New legislation in Minnesota has created an opportunity that allows individuals and households to “subscribe” to energy from a solar installation located on a large roof in the community. This gives new options for community members to participate without the need to have a solar installation on their home.

Join Us!

A representative from Minnesota Community Solar will deliver a short presentation and convene a dialogue on the program. Discover how you can partner with Cool Planet to grow this idea!

RSVP 952-920-1547 or mindy@coolplanetmn.org

When:

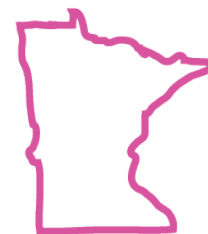

Friday: May 15th, 2015

6:00 – 8pm Followed by food and conversation

We will provide a simple local organic main dish. Bring something to share if you wish and join the fun. You will also get a preview of the Art, Yard and Garden Sale to be held on Saturday benefiting Cool Planet. ☺

Where:

Home of Paul Thompson and Mindy Ahler
4244 Crocker Ave
Edina, MN 55416
