

Windsource® for Residences

Put wind to work in your home

Windsource® is a program that allows customers to pay a little extra every month to get some or all of their energy from renewable resources. As one of the nation's largest voluntary renewable energy programs, Windsource is an easy, inexpensive way to make a difference. Since its inception over fifteen years ago, Windsource has delivered billions of kWh of renewable energy to customers in Colorado, Minnesota, New Mexico, Wisconsin and Michigan. More participants mean more renewable energy production. Thanks to Windsource customers, the amount of renewable energy we produce today is above and beyond government requirements and continues to grow.

For any questions regarding Windsource:

- 1-800-895-4999
- windsource@xcelenergy.com
- Xcel Energy, P.O. Box 8
